

# PROPOSAL FOR FOLDING CONTAINER

# DISPLAY PROCESS

Before folding

folding

After folding

Folding room is convenient for disassembly and installation. It does not take up space after use. It can be reused. It has high cost performance. Floor decoration, one-stop service for wire design and layout, all of which are well designed and typeset, which is more reassuring.

# PRODUCTION

The company focuses on folding containers, packing boxes and other products

Large scale factory production with professional production equipment and scientific research personnel

Adhering to the customer as the main body, attentive service, to achieve you and me.

# STORAGE

# TRANSPORT

**Export by sea (10 sets of finished products)**

# PROJECT EXAMPLE

# TECHNICAL PARAMETER

Export specifications: 5800\*2450\*2500 (mm)  
Export container): 40HQ

名称	数据
Wind resistance	10 Grade
Indoor carrying capacity	180Kg/m2
Roof bearing	50Kg/m2
Fold times	The 180 time
Service life	More than 10 years
50mm Rock wool Heat preservation	0.043 (W/ (m. K) )
50mm Rock wool sound insulation	5 dB
Fire prevention rating	Level A1

# SPECIFICATIONS/MATERIALS

order	Material name	Specifications	Remarks	purpose
1	Steel color plate + glass wool	0.35ceiling, 0.45roof	Light steel structure	Packing box room process
2	Color steel rock wool board	0.32×50×950	Rock wool board	wallboard
3	Bottom beam	2.3×60×6000	Cold bending forming	Q235 galvanized steel plate
4	Secondary beam	40×80×1.8	Galvanized square	finished product
5	floor	15×1180×2660	Fireproof board	Special floor for box room
6	Bottom folding backwater part	1.5×65×80	Forming of cold bending equipment (galvanizing)	Produced by our factory (special for folding box)
7	Side wall material	1.5×65×80	Forming of cold bending equipment (galvanizing)	Produced by our factory (special for folding box)
8	Top side column material	2.7×130×50	Mechanical cold bending	hot dip galvanized
9	4 corner waterproof	40×30	Sealant strip	Customized by our factory
10	door	50×790×1970	Steel Security Doors	Special door for box room
11	window	50×925×1200	Aluminum alloy sliding window	Special window for box room
12	Hinge	130×100×4	Special for folding box	Hot dip galvanizing
13	lighting	1200×2	LED16W 2 led16w	Including 4 back control box and leakage protector
14	wire	1.5㎡ - 2.5㎡	National standard, flexible cable	2.5㎡Lighting 1.5 ㎡ socket 2.5 ㎡
15	paint		Waterborne paint	water paint
